EDUCATION

Central Piedmont Community College | Charlotte, NC
Associate in Applied Science | GPA: 3.2

Fall 2026

PROJECTS

Back2Benefits | Code for Justice Project [[GitHub Link](#)]

October 2025

- Prototyped and validated a non profit organization using a web enabled application raising awareness about food insecurity within the community while utilizing languages such as HTML, CSS, and Javascript.
- Collaborated with project team members through routine improvements and daily code reviews, producing an impeccable final product.

The Paradise of Heels | eCommerce Project [[GitHub Link](#)]

November 2025

- Built a multi-page e-commerce website using HTML, CSS and JavaScript while integrating JSON driven product data, a functional cart system and responsive UI components which resulted in a polished and user friendly shopping experience.
- Implemented an interactive cart system that tracked items, stored user choices across pages, and updated totals, leading to a functional and realistic user retail experience.

WORK EXPERIENCE

Road to Hire | Charlotte, NC

October 2025 - Present

Coding Apprentice

- Strengthening software development skills by building and deploying projects using HTML Markup, CSS, and JavaScript along with GitHub and AWS Amplify, resulting in clean and structured codebases.
- Collaborating with colleagues using Agile workflows such as code reviews and stand up meetings which results in increasing team development, efficiency and overall project speed.
- Built a JavaScript driven website that dynamically updated page content based on user input, improving usability and demonstrating DOM manipulation and event handling.

Labcorp | Charlotte, NC

January 2025 - October 2025

Billing Specialist

- Improved claim accuracy while reducing denials by processing payments, updating accounts, and submitting corrected claims which resulted in fewer billing discrepancies and faster reimbursement.
- Coordinated with cross functional teams to resolve discrepancies in documentation, prevented data errors and maintained compliance with lab protocols.
